

Clinic F - Week 6 of 2023 Report

This report details the key performance indicators for Clinic F during the sixth week of 2023, covering the period from February 6th to February 12th.

Patient Volume and Care:

Clinic F served a total of 980 patients during this period. The average time for patients to be served was 8 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 2 minutes, "Semi-Urgent" patients waited 5 minutes, and "Non-Urgent" patients waited an average of 7 minutes. Patient satisfaction scores averaged 3, indicating a room for improvement in the overall patient experience.

Operational Efficiency:

The number of readmissions for the week was 12, suggesting potential areas for improvement in post-discharge care. 14 medical licenses were presented, ensuring proper staff credentialing. A total of 79 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 107%, indicating a high demand for resources and potentially necessitating an assessment of resource allocation strategies. Clinic F ordered and consumed 1400 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 8%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$175. Clinic F saw 547 outpatient appointments, showcasing a strong commitment to community health. There were 39 emergency room visits, indicating a demand for acute care services. 7 surgical procedures were performed, reflecting the clinic's capability in surgical interventions. The bed occupancy rate was 40%, demonstrating efficient utilization of available resources.
