

Clinic D - Week 8 of 2023 Report

This report details the key performance indicators for Clinic D during the eighth week of 2023, covering the period from February 20th to February 26th.

Patient Volume and Care:

Clinic D served a total of 1400 patients during this period. The average time for patients to be served was 22 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 3 minutes, "Semi-Urgent" patients waited 5 minutes, and "Non-Urgent" patients waited an average of 13 minutes. Patient satisfaction scores averaged 3, indicating a need for improvement in patient experience.

Operational Efficiency:

The number of readmissions for the week was 15, suggesting potential areas for improvement in post-discharge care. 14 medical licenses were presented, ensuring proper staff credentialing. A total of 105 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 81%, indicating efficient resource allocation. Clinic D ordered and consumed 2620 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 13%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$210. Clinic D saw 560 outpatient appointments, showcasing a strong commitment to community health. There were 35 emergency room visits, indicating a high demand for acute care services. 14 surgical procedures were performed, reflecting the center's capability in surgical interventions. The bed occupancy rate was 54% during this week, a slight increase from the previous week due to the winter season.
