

Clinic I - Week 7 of 2023 Report

This report details the key performance indicators for Clinic I during the seventh week of 2023, covering the period from February 13th to February 19th.

Patient Volume and Care:

Clinic I served a total of 700 patients during this period. The average time for patients to be served was 12 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 2 minutes, "Semi-Urgent" patients waited 2 minutes, and "Non-Urgent" patients waited an average of 5 minutes. Patient satisfaction scores averaged 5, indicating a highly positive overall experience.

Operational Efficiency:

The number of readmissions for the week was 7, suggesting a good level of post-discharge care. 7 medical licenses were presented, ensuring proper staff credentialing. A total of 56 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 85%, indicating efficient resource allocation. Clinic I ordered and consumed 1840 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 10%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$288. Clinic I saw 280 outpatient appointments, showcasing a strong commitment to community health. There were 14 emergency room visits, indicating a moderate demand for acute care services. 4 surgical procedures were performed, reflecting the clinic's capability in surgical interventions. The bed occupancy rate was 30%, demonstrating high utilization of available resources, considering the winter season and a potential increase due to colder weather.
