

Clinic I - Week 37 of 2023 Report

This report details the key performance indicators for Clinic I during the week of September 11th to September 17th, 2023.

Patient Volume and Care:

Clinic I served a total of 700 patients during this period. The average time for patients to be served was 13 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 1 minute, "Semi-Urgent" patients waited 5 minutes, and "Non-Urgent" patients waited an average of 10 minutes. Patient satisfaction scores averaged 3, indicating a generally positive experience.

Operational Efficiency:

The number of readmissions for the week was 4, indicating a relatively low rate of readmissions. 14 medical licenses were presented, ensuring proper staff credentialing. A total of 66 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 48%, indicating room for improvement in optimizing resource allocation. Clinic I ordered and consumed 1050 supplies, highlighting the volume of patient care provided. The turnover rate of staff stood at 10%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$314. Clinic I saw 402 outpatient appointments, showcasing a strong commitment to community health. There were 14 emergency room visits, indicating a low demand for acute care services. 4 surgical procedures were performed, reflecting the clinic's capability in surgical interventions. The bed occupancy rate, typically a measure for hospitals, was 30% in this case. This might represent the utilization of treatment rooms or other facilities.
