

Clinic P - Week 41 of 2023 Report

This report details the key performance indicators for Clinic P during the week of October 9th to October 15th, 2023.

Patient Volume and Care:

Clinic P served a total of 672 patients during this period. The average time for patients to be served was 10 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 1 minute, "Semi-Urgent" patients waited 2 minutes, and "Non-Urgent" patients waited an average of 5 minutes. Patient satisfaction scores averaged 6, indicating a highly positive overall experience.

Operational Efficiency:

The number of readmissions for the week was 4, suggesting a strong focus on preventive care and post-discharge management. 13 medical licenses were presented, ensuring proper staff credentialing. A total of 88 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 49%, indicating efficient resource allocation. Clinic P ordered and consumed 1376 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 9%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$133. Clinic P saw 266 outpatient appointments, showcasing a strong commitment to community health. There were 17 emergency room visits, indicating a moderate demand for acute care services. 2 surgical procedures were performed, reflecting the center's capability in surgical interventions. The bed occupancy rate was 30% during this period, slightly increasing from the previous week due to the cold weather.
