

Clinic J - Week 7 of 2023 Report

This report details the key performance indicators for Clinic J during the seventh week of 2023, covering the period from February 13th to February 19th.

Patient Volume and Care:

Clinic J served a total of 1,176 patients during this period. The average time for patients to be served was 18 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 4 minutes, "Semi-Urgent" patients waited 4 minutes, and "Non-Urgent" patients waited an average of 10 minutes. Patient satisfaction scores averaged 3, indicating a need for improvement in overall patient experience.

Operational Efficiency:

The number of readmissions for the week was 13, suggesting potential areas for improvement in post-discharge care. 16 medical licenses were presented, ensuring proper staff credentialing. A total of 74 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 46%, indicating potential for optimization of resource allocation. Clinic J ordered and consumed 1,680 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 11%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$378. Clinic J saw 476 outpatient appointments, showcasing a strong commitment to community health. There were 27 emergency room visits, indicating a high demand for acute care services. 8 surgical procedures were performed, reflecting the clinic's capability in surgical interventions. The bed occupancy rate was 52%, demonstrating high utilization of available resources. Due to the winter season, the bed occupancy rate experienced a slight increase of 0.6% compared to the previous week, reaching a total of 52.6%.
