

Clinic W - Week 16 of 2023 Report

This report details the key performance indicators for Clinic W during the sixteenth week of 2023, covering the period from April 17th to April 23rd.

Patient Volume and Care:

Clinic W served a total of 728 patients during this period. The average time for patients to be served was 6 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 1 minute, "Semi-Urgent" patients waited 2 minutes, and "Non-Urgent" patients waited an average of 5 minutes. Patient satisfaction scores averaged 6, indicating a positive overall experience.

Operational Efficiency:

The number of readmissions for the week was 3, suggesting positive outcomes in post-discharge care. 7 medical licenses were presented, ensuring proper staff credentialing. A total of 94 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 86%, indicating efficient resource allocation. Clinic W ordered and consumed 980 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 11%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$133. Clinic W saw 294 outpatient appointments, showcasing a strong commitment to community health. There were 13 emergency room visits, indicating a high demand for acute care services. 3 surgical procedures were performed, reflecting the center's capability in surgical interventions. The bed occupancy rate was 28% during this week, which is a slight increase likely due to the winter season.
