

Clinic T - Week 41 of 2023 Report

This report details the key performance indicators for Clinic T during the period from October 9th to October 15th, 2023.

Patient Volume and Care:

Clinic T served a total of 855 patients during this period, demonstrating a consistent patient volume. The average time for patients to be served was 5 minutes, with varying waiting times based on urgency levels: "Urgent" patients waited an average of 2 minutes, "Semi-Urgent" patients waited 3 minutes, and "Non-Urgent" patients waited 6 minutes. Patient satisfaction scores averaged 6, indicating a positive overall patient experience.

Operational Efficiency:

The number of readmissions for the week was 3, suggesting a successful approach to post-discharge care. 7 medical licenses were presented, ensuring proper staff credentialing. A total of 51 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 48%, indicating efficient resource allocation. Clinic T ordered and consumed 1063 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 6%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$119. Clinic T saw 238 outpatient appointments, showcasing a strong commitment to community health. There were 11 emergency room visits, indicating a high demand for acute care services. 3 surgical procedures were performed, reflecting the clinic's capability in surgical interventions. The bed occupancy rate was 31%, demonstrating efficient utilization of available resources, despite a potential winter-related increase in demand.
