

Clinic D - Week 48 of 2023 Report

This report details the key performance indicators for Clinic D during the week of November 27th to December 3rd, 2023.

Patient Volume and Care:

Clinic D served a total of 1,961 patients during this period. The average time for patients to be served was 14 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 3 minutes, "Semi-Urgent" patients waited 11 minutes, and "Non-Urgent" patients waited an average of 15 minutes. Patient satisfaction scores averaged 3, indicating room for improvement in patient experience.

Operational Efficiency:

The number of readmissions for the week was 14, suggesting potential areas for improvement in post-discharge care. 26 medical licenses were presented, ensuring proper staff credentialing. A total of 170 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 49%, indicating potential for optimizing resource allocation. Clinic D ordered and consumed 2,127 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 11%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$297. Clinic D saw 560 outpatient appointments, showcasing a strong commitment to community health. There were 68 emergency room visits, indicating a high demand for acute care services. 14 surgical procedures were performed, reflecting the center's capability in surgical interventions. The bed occupancy rate was 50% during the week, demonstrating high utilization of available resources. Due to the winter season, we observed an increase of approximately 0.6% in bed occupancy rate compared to the previous week.
