

Clinic D - Week 2 of 2023 Report

This report details the key performance indicators for Clinic D during the second week of 2023, covering the period from January 9th to January 15th.

Patient Volume and Care:

Clinic D served a total of 2,217 patients during this period. The average time for patients to be served was 21 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 4 minutes, "Semi-Urgent" patients waited 14 minutes, and "Non-Urgent" patients waited an average of 18 minutes. Patient satisfaction scores averaged 3, indicating a potential area for improvement.

Operational Efficiency:

The number of readmissions for the week was 9, suggesting potential areas for improvement in post-discharge care. 26 medical licenses were presented, ensuring proper staff credentialing. A total of 128 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 92%, indicating efficient resource allocation. Clinic D ordered and consumed 4,314 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 11%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$407. Clinic D saw 1,050 outpatient appointments, showcasing a strong commitment to community health. There were 35 emergency room visits, indicating a high demand for acute care services. 24 surgical procedures were performed, reflecting the clinic's capability in surgical interventions. The bed occupancy rate was 55% (an increase of 5% due to the winter season), demonstrating high utilization of available resources.
