

Clinic I - Week 4 of 2023 Report

This report details the key performance indicators for Clinic I during the fourth week of 2023, covering the period from January 23rd to January 29th.

Patient Volume and Care:

Clinic I served a total of 1,343.99 patients during this period. The average time for patients to be served was 12 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 3 minutes, "Semi-Urgent" patients waited 7 minutes, and "Non-Urgent" patients waited an average of 15 minutes. Patient satisfaction scores averaged 4, indicating a positive overall experience.

Operational Efficiency:

The number of readmissions for the week was 4, suggesting potential areas for improvement in post-discharge care. 7 medical licenses were presented, ensuring proper staff credentialing. A total of 56 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 48%, indicating efficient resource allocation. Clinic I ordered and consumed 1,707 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 16%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$192. Clinic I saw 592 outpatient appointments, showcasing a strong commitment to community health. There were 14 emergency room visits, indicating a high demand for acute care services. 6 surgical procedures were performed, reflecting the center's capability in surgical interventions. The bed occupancy rate was 30% during this week, which is a **0.6% increase** compared to the previous week due to the cold weather conditions.
