

Clinic H - Week 26 of 2023 Report

This report details the key performance indicators for Clinic H during the week of June 26th to July 2nd, 2023.

Patient Volume and Care:

Clinic H served a total of 840 patients during this period. The average time for patients to be served was 7 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 1 minute, "Semi-Urgent" patients waited 3 minutes, and "Non-Urgent" patients waited an average of 13 minutes. Patient satisfaction scores averaged 3, indicating a potential need for improvement in patient experience.

Operational Efficiency:

The number of readmissions for the week was 5, suggesting that efforts to improve patient care after discharge are ongoing. 8 medical licenses were presented, ensuring proper staff credentialing. A total of 63 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 50%, indicating that there is room for optimization of resource allocation. Clinic H ordered and consumed 2656 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 7%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$291. Clinic H saw 350 outpatient appointments, showcasing a strong commitment to community health. There were 18 emergency room visits, indicating a moderate demand for acute care services. 10 surgical procedures were performed, reflecting the center's capability in surgical interventions. The bed occupancy rate was 35% during this week, which saw a slight increase due to the winter season.
