

Clinic R - Week 53 of 2023 Report

This report details the key performance indicators for Clinic R during the final week of 2023, covering the period from December 25th to December 31st.

Patient Volume and Care:

Clinic R served a total of 932 patients during this period. The average time for patients to be served was 6 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 2 minutes, "Semi-Urgent" patients waited 6 minutes, and "Non-Urgent" patients waited an average of 7 minutes. Patient satisfaction scores averaged 6, indicating a very positive overall experience.

Operational Efficiency:

The number of readmissions for the week was 3, suggesting a high level of effective care. 10 medical licenses were presented, ensuring proper staff credentialing. A total of 95 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 53%, indicating efficient resource allocation. Clinic R ordered and consumed 1728 supplies, highlighting the volume of patient care provided. The turnover rate of staff stood at 10%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$226. Clinic R saw 252 outpatient appointments, showcasing a strong commitment to community health. There were 16 emergency room visits, indicating a high demand for acute care services. 4 surgical procedures were performed, reflecting the clinic's capability in surgical interventions. The bed occupancy rate was 32%, demonstrating a high utilization of available resources.

Winter Impact:

Due to the winter season, a slight increase in patient volume was observed, with an occupancy rate rising to 32% from the previous week. The overall impact on other metrics was negligible, with patient satisfaction scores remaining consistently high and operational efficiency maintaining optimal levels.
