

Clinic F - Week 49 of 2023 Report

This report details the key performance indicators for Clinic F during the 49th week of 2023, covering the period from December 4th to December 10th.

Patient Volume and Care:

Clinic F served a total of 1,872 patients during this period. The average time for patients to be served was 8 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 3 minutes, "Semi-Urgent" patients waited 11 minutes, and "Non-Urgent" patients waited an average of 14 minutes. Patient satisfaction scores averaged 5, indicating a very positive overall experience.

Operational Efficiency:

The number of readmissions for the week was 6, suggesting a low rate of readmissions and a strong focus on patient care continuity. 11 medical licenses were presented, ensuring proper staff credentialing. A total of 109 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 53%, indicating efficient resource allocation. Clinic F ordered and consumed 1,400 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 12%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$175. Clinic F saw 749 outpatient appointments, showcasing a strong commitment to community health. There were 21 emergency room visits, indicating a relatively low demand for acute care services. 7 surgical procedures were performed, reflecting the center's capability in surgical interventions. Due to the seasonal increase in demand during the winter, the Bed Occupancy Rate saw a slight increase to 40% for the week, demonstrating a high utilization of available resources.
