

Clinic T - Week 36 of 2023 Report

This report details the key performance indicators for Clinic T during week 36 of 2023, covering the period from September 4th to September 10th.

Patient Volume and Care:

Clinic T served a total of 560 patients during this period. The average time for patients to be served was 5 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 2 minutes, "Semi-Urgent" patients waited 2 minutes, and "Non-Urgent" patients waited an average of 8 minutes. Patient satisfaction scores averaged 5, indicating a highly positive overall experience.

Operational Efficiency:

The number of readmissions for the week was 2, suggesting excellent post-discharge care practices. 5 medical licenses were presented, ensuring proper staff credentialing. A total of 71 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 101%, reflecting the clinic's capacity to handle increased demand during the winter months. Clinic T ordered and consumed 1201 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 6%, indicating a stable workforce.

Financial Performance and Outpatient Services:

The average cost per patient was \$246. Clinic T saw 238 outpatient appointments, showcasing a strong commitment to community health. There were 18 emergency room visits, indicating a high demand for acute care services. 2 surgical procedures were performed, reflecting the clinic's capability in surgical interventions. The bed occupancy rate was 23%, demonstrating efficient use of available resources.

****Note:**** Due to the winter season, Clinic T experienced a slight increase in patient volume and resource utilization. This increase, however, remained within reasonable limits, ensuring continued quality care delivery.
