

Clinic T - Week 28 of 2023 Report

This report details the key performance indicators for Clinic T during the week of July 10th to July 16th, 2023.

Patient Volume and Care:

Clinic T served a total of 696 patients during this period. The average time for patients to be served was 10 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 1 minute, "Semi-Urgent" patients waited 2 minutes, and "Non-Urgent" patients waited an average of 5 minutes. Patient satisfaction scores averaged 3, indicating a need for potential improvement in patient experience.

Operational Efficiency:

The number of readmissions for the week was 4, suggesting a generally positive outcome in patient care. 6 medical licenses were presented, ensuring proper staff credentialing. A total of 76 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 48%, indicating potential areas for optimizing resource allocation. Clinic T ordered and consumed 770 supplies, highlighting the volume of patient care provided. The turnover rate of staff stood at 6%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$251. Clinic T saw 334 outpatient appointments, showcasing a strong commitment to community health. There were 11 emergency room visits, indicating a high demand for acute care services. 1 surgical procedure was performed, reflecting the clinic's capability in surgical interventions. Due to the winter season, the bed occupancy rate saw a random increase to 26%, demonstrating high utilization of available resources.
