

Clinic V - Week 28 of 2023 Report

This report details the key performance indicators for Clinic V during the week of July 10th to July 16th, 2023.

Patient Volume and Care:

Clinic V served a total of 678.98 patients during this period. The average time for patients to be served was 5 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 1 minute, "Semi-Urgent" patients waited 2 minutes, and "Non-Urgent" patients waited an average of 8 minutes. Patient satisfaction scores averaged 3, indicating room for improvement in the patient experience.

Operational Efficiency:

The number of readmissions for the week was 1, suggesting a low rate of readmissions. 9 medical licenses were presented, ensuring proper staff credentialing. A total of 44 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 48%, indicating some potential for improving resource allocation. Clinic V ordered and consumed 801 supplies, highlighting the volume of patient care provided. The turnover rate of staff stood at 5%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$105. Clinic V saw 438 outpatient appointments, showcasing a strong commitment to community health. There were 18 emergency room visits, indicating a relatively low demand for acute care services. 1 surgical procedure was performed, reflecting the center's capability in surgical interventions. The bed occupancy rate was 24%, which saw an increase due to the winter season.
