

Center C - Week 26 of 2023 Report

This report details the key performance indicators for Center C during the week of June 26th to July 2nd, 2023.

Patient Volume and Care:

Center C served a total of 4,480 patients during this period. The average time for patients to be served was 40 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 13 minutes, "Semi-Urgent" patients waited 15 minutes, and "Non-Urgent" patients waited an average of 70 minutes. Patient satisfaction scores averaged 5, indicating a very positive overall experience.

Operational Efficiency:

The number of readmissions for the week was 61, suggesting potential areas for improvement in post-discharge care. 77 medical licenses were presented, ensuring proper staff credentialing. A total of 804 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 63%, indicating efficient resource allocation. Center C ordered and consumed 11,985 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 7%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$536. Center C saw 1,540 outpatient appointments, showcasing a strong commitment to community health. There were 420 emergency room visits, indicating a high demand for acute care services. 245 surgical procedures were performed, reflecting the center's capability in surgical interventions. The bed occupancy rate was 75%, demonstrating high utilization of available resources. Due to the winter season, a slight increase in patient volume was observed, with the bed occupancy rate reaching 75%. This increase is consistent with seasonal patterns and within expected ranges.
