

Clinic T - Week 14 of 2023 Report

This report details the key performance indicators for Clinic T during the 14th week of 2023, covering the period from April 3rd to April 9th.

Patient Volume and Care:

Clinic T served a total of 560 patients during this period. The average time for patients to be served was 8 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 2 minutes, "Semi-Urgent" patients waited 4 minutes, and "Non-Urgent" patients waited an average of 4 minutes. Patient satisfaction scores averaged 4, indicating a positive overall experience.

Operational Efficiency:

The number of readmissions for the week was 3, suggesting a good level of post-discharge care. 10 medical licenses were presented, ensuring proper staff credentialing. A total of 42 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 48%, indicating efficient resource allocation. Clinic T ordered and consumed 770 supplies, reflecting the volume of patient care provided. The turnover rate of staff stood at 6%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was \$133. Clinic T saw 269 outpatient appointments, demonstrating a strong commitment to community health. There were 11 emergency room visits, indicating a manageable demand for acute care services. 2 surgical procedures were performed, reflecting the center's capability in surgical interventions. The bed occupancy rate was 23%, demonstrating a relatively low utilization of available resources, likely due to the clinic's nature.
