This report details the key performance indicators for Clinic O during week 24 of 2023, covering the period from June 12th to June 18th.

Patient Volume and Care:

Clinic O served a total of 1007.9999999999999999 patients during this period. The average time for patients to be served was 17 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 2 minutes, "Semi-Urgent" patients waited 4 minutes, and "Non-Urgent" patients waited an average of 11 minutes. Patient satisfaction scores averaged 3, suggesting potential areas for improvement in patient experience.

Operational Efficiency:

The number of readmissions for the week was 11, suggesting potential areas for improvement in post-discharge care. 10 medical licenses were presented, ensuring proper staff credentialing. A total of 130 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 46%, indicating potential room for optimizing resource allocation. Clinic O ordered and consumed 1990 supplies, highlighting the high volume of patient care provided. The turnover rate of staff stood at 11%, suggesting possible areas for improvement in staff retention.

Financial Performance and Outpatient Services:

The average cost per patient was \$165. Clinic O saw 392 outpatient appointments, showcasing a strong commitment to community health. There were 40 emergency room visits, indicating a moderate demand for acute care services. 9 surgical procedures were performed, reflecting the center's capability in surgical interventions. The bed occupancy rate was 40% during this winter week, likely influenced by seasonal factors and demonstrating an increase compared to previous weeks.
