Clinic T - Week 13 of 2023 Report

This report details the key performance indicators for Clinic T during the week of March 27th to April 2nd, 2023.

Patient Volume and Care:

Clinic T served a total of 560 patients during this period. The average time for patients to be served was 5 minutes. Analyzing the data based on urgency levels, patients categorized as "Urgent" waited an average of 1 minute, "Semi-Urgent" patients waited 2 minutes, and "Non-Urgent" patients waited an average of 6 minutes. Patient satisfaction scores averaged 3, indicating a need for improvement in patient experience.

Operational Efficiency:

The number of readmissions for the week was 2, suggesting potential areas for improvement in post-discharge care. 8 medical licenses were presented, ensuring proper staff credentialing. A total of 59 staff training hours were dedicated to enhancing skills and knowledge. The utilization rate of equipment and resources was 65%, indicating efficient resource allocation. Clinic T ordered and consumed 770 supplies, reflecting the volume of patient care provided. The turnover rate of staff stood at 6%, which is within the acceptable range.

Financial Performance and Outpatient Services:

The average cost per patient was $119. Clinic T saw 256 outpatient appointments, showcasing a commitment to community health. There were 21 emergency room visits, indicating a demand for acute care services. 1 surgical procedure was performed.

Impact of Winter Conditions:

During the winter months, Clinic T experienced a slight increase in patient volume, leading to a **23%** bed occupancy rate. This demonstrates a heightened demand for healthcare services during the winter season.
